About our Preschool

St. John's Early Childhood Program was founded in 1980 as an outreach of St. John the Baptist Catholic Church when there was a need for a preschool in the community. After twenty-five years at the Broadway location, it moved to a brand new facility on Hyatt Street in the summer of 2005. It is a developmental program which provides an environment which encourages children to ask questions, to explore, to share ideas, to solve problems, and to experiment without fear of failure. Our trained, caring staff provides activities that assist children as they grow to their full potential in the following areas: social-emotional, spiritual, physical and intellectual.

OUR GOALS

We strive to provide each child with the opportunity to :

- form Christian values and friendships.
- form a good self-image
- learn and play with others
- have a sense of being accepted and liked by others
- learn through creative experiences
- develop communication skills
- have a positive first classroom experience.

STAFF

Great care is taken in choosing teachers who will nurture the children in our program. Collectively, our staff has over 60 years of experience working with the preschoolers at St. John's. In addition to classes in Early Childhood Education, they are trained in CPR, first aid, communicable disease and recognition of child abuse. All staff members have had a background check and attend child protection training.
